

Are you paying too much for credit card processing? (Hint: probably.)

It's true. Most companies pay more in monthly processing fees than they actually realize. Because no one told them they have options.

But you do have options. That's why we're here.

Hi, we're Calibr.

We provide smarter, more cost-effective merchant solutions.

When it comes to credit card processing companies, you have a choice. You don't have to use your bank, or stick with the company you've been using for years. Unless you like overpaying. (Which is something we don't recommend.)

If you need to cut costs from the bottom line, evaluating your credit card processing solution is a great place to start.

At Calibr, we have relationships with some of the world's largest acquirers, including First Data, WorldPay, and TSYS. Because we don't work with just one processing company, we can help you find the best solution for your business.

Real customers. **Real cost savings.**

**\$18,000+
annual savings**

We helped a wood processing company choose a smarter processing solution that saved them more than \$1,500 per month, or \$18,000+ annually.

**\$5,000+
annual savings**

We helped a restaurant select a smarter processing solution that saved them \$430 per month, or \$5,000+ annually.

**\$5,300
annual savings**

And we helped an eye care facility implement a smarter processing solution that saved them \$446 per month, or \$5,300 annually.

Why Calibr?

We're customer advocates, not sales people.

We're not here to sell. We're here to help you find the most cost-effective processing solution. If it makes sense to move forward with us, great! If not, that's okay, too. Whatever's best for your business.

Your satisfaction is guaranteed. Really!

We offer 30, 60 and 90-day reviews once you're up and running to make sure we're delivering on what we proposed. If you're not happy, you can cancel at any time. And there's no early termination fee.

Our rates will never go up. Ever.

You know those letters you've gotten from your current provider telling you there's another rate increase? You'll never get one of those from us. Industry hard costs may shift, but the rate we set you up with may as well be written in stone.

Responsive, hands-on customer service.

We're not a fly-by-night company who disappears the moment the contract is signed. When you call us, you'll speak with someone who knows the business and knows your account, ensuring your problem gets resolved quickly.

Ready to talk about smarter merchant solutions?

Get a free, no-pressure, no-obligation savings analysis.

We only need 2-3 months of processing statements and 30 minutes of your time to analyze your current setup and determine if we can provide cost savings.

If we can, we'll walk you through a proposal with recommendations for optimizing your hard and soft processing costs, and what the go-forward process will look like.

Email info@gocalibr.com
or give us a call at **866.803.1850**
to set up your free analysis.

We look forward to hearing from you.
